## About me

---

I am a dedicated, organized and self-driven individual. Completed my matric while also completing user experience (UX) and user interface (UI) course from Harambee through google sprint learnership. I have strengthened my skills in the work environment by offering technical support at schools supported by Anglo American Platinum mining company.

## Achievements & Key Projects

---

- Completed NQF level 4 of Information Communication and Technology
- Anglo American Platinum winner of Google sprint learnership competition with user Experience and user interface course.
- Anglo American's mentor for hydrogen-based STEM education.
- Information Communication and Technology champion at the schools supported by Anglo American Platinum.

## Work Experience

---

- Offered Technical Support at Jan Malebana Primary school and Mphunye Secondary school.
- Currently doing my internship at Capaciti for software development.
